## Boy, 14, Drowns In River Swim Off Newell Park

A 14-year-old Eastern Panhandle boy visiting in Hancock County drowned in the Ohio River Monday afternoon while swimming at John F. Kennedy Memorial Park at the site of abandoned Dam 8 near Newell.

The victim was Darrel L. Price of Charles Town, described by a companion as "not a very good swimmer," whose body was recovered in about six feet of water along the West Virginia shore.

CORONER John D. Herron of New Cumberland and Deputy Roger Cline of the county sheriff's office established the boy's identity after lengthy investigation that included questioning of his friends at the Midway Trailer Court on Route 66.

They related the youngster had arrived Monday morning from Charles Town with a van of horses en route to Waterford Park Race Track, and had planned to spend the day visiting friends at the trailer court.

After earning 50 cents by cleaning an auto of one of the trailer court residents, the youngster and a friend, Michael Crago, 13, borrowed bicycles to ride to the riverfront park near Newell for swimming.

YOUNG PRICE left his tan cowboy hat in the car of O. D. Plevier of the trailer court and wore only his green cloth trousers and a shirt to the park.

Young Crago told the coroner he did not know the victim's first name, a story repeated by several residents of the trailer court, who knew the Charles Town youth only by sight and were acquainted with his step-

father, Elmer Chopin, a horse trainer or owner at Shenandoah Downs in Charles Town.

Young Crago was the only actual witness to the drowning, authorities established, although Crago's cries for help were unanswered by several boys who were also at the park.

The companion said young Price was not an exceptionally good swimmer and had apparently swam out too far in the river for his safety, in water more than six feet deep.

CRAGO SAID the victim submerged out of sight, came to the surface several times, and then disappeared beneath the water. The victim did not make any outcries for help at any time, Crago told the coroner.

When his suspicions were confirmed that young Price was in trouble, Crago said he shouted for help. His cries were heard by several other boys nearby, but Crago told authorities they said "Save him yourself," or words to that effect.

Finally, other park visitors responded to Crago's pleas for aid, and an unidentified woman called police.

The body was recovered in seven to 10 minutes by Pete Pittenger and Dave Gamble, 16, both of Newell, at 2:45 p.m. near a guide wall about 60 feet from shore. The youngsters had gone swimming at 1:30 p.m.

ALVIN (Pete) Arner of the Arner Funeral Chapel in Chester attempted mouth-to-mouth and artificial resuscitation when the body was pulled from the water about 15 feet south of a

## Senators Reject Disclosure Rule

WASHINGTON (AP) — The Senate has turned down proposed new rules for disclosure of the outside financial interests of its members and top employees.

Instead, it has thrown its support to setting up a 17-member commission to conduct a two-year study of measures to insure high ethical standards among all federal officials.

Establishment of the study commission may come up for a final vote today, although a bill to limit meat imports may be given priority.

Democratic leader Mike Mansfield of Montana, expressing surprise over the turn of events in the Senate Monday night, indicated he wanted to explore the situation before making a decision.

The financial disclosure resolutions that went down to defeat were the outgrowth of the Senate Rules Committee's investigation of the fortune Bobby Baker accumulated while secre-

tary of the Senate's Democratic majority.

Baker resigned under fire last Oct. 7. In a report to the Senate earlier this month the committee said he had been "guilty of many gross improprieties."

The committee recommended a new Senate rule requiring senators and all Senate employees earning over \$10,000 a year to disclose annually their major outside financial interests—but not the value of their holdings nor the income derived from them.

But Monday night the Senate voted 48 to 39 to send this proposal back to the committee with instructions that it report out forthwith a substitute measure providing for establishment of a 17-member commission on ethics in the federal government.

The Senate also defeated 62 to 25 a far more sweeping disclosure rule than the Rules Committee's.

## McDivitt, White Selected For Gemini Space Crew

HOUSTON, Tex. (AP)—Capt. James A. McDivitt, 35, of Chicago will become the first of the second generation astronauts to man the command seat in a Gemini spacecraft.

Capt. Edward H. White II, 33, of San Antonio, Tex. will be his copilot.

The surprise announcement of their selection as the crew of the second Gemini spacecraft was made Monday by Paul Haney, Manned Spacecraft Center public affairs officer.

Some astronaut with experience in Project Mercury had been expected to draw the pilot's assignment but injury and illness knocked the older spacemen off the crew.

M. Scott Carpenter, a prime candidate from the Mercury group, recently suffered a broken arm and toe in a motor-bike accident. Alan B. Shepard Jr. is suffering from labyrinthitis,

which causes dizziness. John Glenn, who resigned from the space project but who may return, also suffers from labyrinthitis. Donald K. Slayton, an-

### Rockefeller Visits Quiet Riot Areas

#### Rochester Toured By Governor Who Expresses 'Shock'

ROCHESTER, N.Y. (AP) — Violence-ridden Rochester, described by Gov. Nelson A. Rockefeller as a victim of extremism, struggled today to regain a semblance of normalcy from a bloody weekend of race rioting.

With its uneasy peace being enforced by hundreds of helmeted city and state police, the city was paid a surprise visit Monday by the governor.

Rockefeller expressed "shock and great sadness" over what he saw during a tour of the riot-torn Negro sections.

Declaring that the racial violence was clear evidence of extremism that cannot be justified, Rockefeller said he found no evidence of outside agitators, however.

He said he felt that there was no connection with the race violence which ripped through New York's Harlem and a Negro area of Brooklyn.

The relative quiet in Rochester prompted hopes that some solution could be found to curb the simmering unrest before the week was out.

Worried officials said privately they feared another bloody weekend might erupt when factories closed and thousands of workers were released for their normal days off.

Rochester's racial strife—fomented by thousands of Negroes and some whites—left a tragic toll of four dead, at least 350 injured and millions of dollars in property damage.

### 'Cooler Wednesday?' Seeing's Believing!

The Ohio weatherman hints he may turn down the burner Wednesday on the sizzling July heat wave.

For the first time since the torrid spell started 10 days ago, the forecast uses the word "cool" and the moderation tomorrow apparently will follow scattered thunderstorms late today or tonight.

But relief will not be easy—today's high may range to 90 or more and tonight's low will be a duplicate of the 70 recorded downtown at 6 a.m. today. Some parts of Ohio will get a sweltering 94 high today with no break in the humidity.

### Hope Fades For 14 Within French Mine

#### No Sound Reported As Rescuers Drill Into Cave-In Area

CHAMPAGNOLE, France (AP)—Hope began to fade today for 14 men entombed for almost 24 hours in a limestone mine in the Jura Mountains of eastern France.

A drill pipe sunk through 128 feet of mud and rock broke through into an intact part of the mine. Rescuers lowered a highly sensitive listening device down the 6-inch tube but heard only the sound of dripping water and falling stones.

Officials said the absence of human sounds was "very disturbing." They said the men would have come to the point where the pipe pierced the mine roof if they were alive and well.

One official said it was possible that the area of the mine under the drill pipe was cut off from where the men were sheltered. But in that case the rescuers face new and formidable difficulties when they break through into the mine.

The drillers had worked through the night at one spot without making a breakthrough. Then they moved the rig several yards up the hill and started again.

### Offers Asked Aug. 11 For Dresden Project

The State Highway Department announced Monday it will open bids Aug. 11 at its office in Columbus on blacktop resurfacing of a 1.83-mile stretch of Dresden Ave. from a point a quarter mile inside the city limits to Route 170 at Substation.

City Council voted \$600 in late June as the city's share of the project, estimated to cost \$6,000 in all.

The improvement will begin at the temporary connection that now links the new Freeway with Dresden Ave. in the 1800 block.

### Sets Party Talks

## Goldwater Plans GOP Unity Drive

WASHINGTON (AP) — Republican presidential nominee Barry Goldwater, seeking to strengthen the GOP ticket in the coming campaign, is launching a drive for top-to-bottom party unity.

The Arizona senator announced Monday night a series of talks with GOP congressional leaders, members of the House and Senate, governors and other party chieftains "in the interests of the campaign, of all Republican candidates' campaigns and of party unity."

Goldwater confers Wednesday with the Senate-House Republican Leadership Conference to talk over legislation facing Congress and discuss campaign plans.

The senator said he and vice presidential nominee William E.

## Sheriff Charges District Youth In Wounding Man

A charge of shooting with intent to kill or wound was filed by Sheriff Russell J. VanFossan late Monday afternoon in Eastern District Court at East Palestine against Walter Beatty Jr., 18, of Apples Corners, northwest of East Liverpool, on Route 30.

The preliminary hearing will be held Thursday at 1 p.m. before Judge Herbert Arfman.

Beatty allegedly admitted shooting Ira Baird, 30, of Youngstown, Saturday afternoon in an orchard south of Apples Corners, just off Route 267.

Baird remains in "critical" condition today at Youngstown South Side Hospital, after being admitted first at City Hospital. He underwent surgery Saturday night.

### Pennsylvania Court Rules Blatt Victory

#### Appeal Scheduled By Musmanno For Senate Nomination

PHILADELPHIA (AP) — Genevieve Blatt, first woman ever elected to statewide office in Pennsylvania, apparently sewed up the Democratic nomination for U.S. senator today—more than three months after the Pennsylvania primary.

The State Supreme Court, in a 3-2 decision, ruled against counting about 6,000 so-called wrong-line ballots that would have given the decision to her opponent, State Supreme Court Justice Michael A. Musmanno.

Musmanno, in Pittsburgh Monday, had no immediate comment, but his attorney, Abraham E. Freedman, said he "most certainly does plan to appeal," although he had yet to talk with Musmanno.

Miss Blatt, who is in her 50s, had a 513 vote lead, out of nearly one million votes cast, prior to today's decision.

In the wrong-line balloting, which was tabulated by lower court order but not recorded officially, Musmanno had an edge of about 1,200 votes.

### U.S. Again Readies Lunar Probe Launch

CAPE KENNEDY, Fla. (AP) — The United States tries again today to launch the Ranger 7 spacecraft on a picture-taking mission to the moon.

The Atlas-Agena booster rocket was to vault skyward in a favorable launching period between 11:50 a.m. and 1:58 p.m. Eastern Standard Time.

The shot was postponed Monday when static-like noise developed in a ground transmitter used to send radio commands to the guidance system after the rocket is airborne. The problem was corrected.

### Move Seen Warning To Red Chinese

#### More Troops Due; No Increase Eyed For Combat Roles

SAIGON, South Viet Nam (AP)—Four U.S. servicemen were reported killed in South Viet Nam today as the U.S. government made plans for a big boost in its military manpower in the Communist-threatened nation.

Up to 3,000 more American military advisers and training personnel may be sent to swell the U.S. force of about 16,250 already in the country. No extension of the Americans' limited combat role was in prospect, however.

Four more American dead were reported by reliable sources who could not give the circumstances. U.S. military spokesmen for the time being would confirm the death of only one American.

Four more dead would bring the total Americans killed in action against the Communist Viet Cong to 163 since December 1961.

The South Vietnamese government announced the new buildup Monday after a conference between Premier Nguyen Khanh and U.S. Ambassador Maxwell D. Taylor.

A U.S. spokesman said the arrival of personnel would be gradual, and the number now planned might be changed as circumstances developed.

"This increase in U.S. aid as well as other aid from friendly countries granted at the request of the Vietnamese government should be construed as a warning to the Communists in Hanoi (the capital of North Viet Nam)," Khanh's government said.

The communique said U.S. aid would be increased in the following fields:

—More military advisers for Vietnamese armed forces, especially at battalion level and in the Navy and Air Force.

—More U.S. Special Forces of guerrilla war experts to advise Vietnamese special forces more effectively and increase guards

### Opening Rites For Freeway Due In August

The highway committee of the Chamber of Commerce will meet Thursday at 4 p.m. to plan a ribbon-cutting ceremony in mid-August to mark the opening of the northbound lanes of the new Freeway under the city limits and Substation.

The inbound lanes of the two-mile improvement have been in use since late last fall. But use of the outbound lanes was delayed until the contractor completed so-called "corrective work" required by the State Highway Department.

When the outbound lanes are thrown open to traffic, they officially will become the path of Routes 7 and 30 through California Hollow and outer Dresden Ave. will revert to the county highway system.

Work on the second area stage of the Freeway and launched in the fall of 1962 by the Great Lakes Construction Co. of Cleveland under a \$2,796,405 state contract.

Except for the "corrective" work specified by the state, the project virtually was completed late in the fall of 1963.

No ceremony was held to

## King Angers Harlem With Wagner Talk

NEW YORK (AP)—Dr. Martin Luther King Jr. conferred with Mayor Robert F. Wagner today about New York's racial situation, and Harlem leaders expressed anger that King did not consult them first.

King said after the 3 1/2-hour meeting, which ended at 2 a.m., that he would meet with "summit leaders" in the riot-torn sections of New York City.

"Matters of national importance" were discussed by King and Wagner, said one of the mayor's aides.

Before leaving Atlanta Monday night, King had urged Negroes in New York to halt violence and lawlessness, warning that they could set back the civil rights movement.

He also said he might make peace tours in Rochester, N.Y., this weekend.

Rochester had its first quiet night since Friday, when rioting and looting broke out, but a state of emergency and a curfew still were in effect.

New York City policemen testified Monday in a State Supreme Court hearing that William Epton, a Negro and self-described Communist, told a secret Harlem meeting last week that "the state must be smashed," and "we're going to have to kill cops and judges."

Justice Gerald P. Culklin continued a restraining order against demonstrations by Epton's group, the Harlem Defense Council.

While King and Wagner were meeting, an aide said that no statement would be made until a news conference at 4 p.m. Eastern Daylight Time today.

The aide said Wagner, King and others would meet again at City Hall before the news conference. Also taking part in the discussions was Bayard Rustin, leader of last year's march on Washington.

Harlem community leaders met Monday night to form a "unity council."

L. Joseph Overton, a leader of the Harlem Labor Council, was acting chairman of the unity conference. He said the leaders of 69 political, religious, business and civic organizations in Harlem agreed on a list of issues, including two demands:

—The suspension of white police Lt. Thomas Gilligan, whose fatal shooting of a Negro boy touched off the bloody rioting. Gilligan said he fired in self-defense.

—The "immediate appointment by the mayor of a representative independent civilian complaint review board, with subpoena power," to deal primarily with charges of police brutality.

Overton and Livingston Wingate, president of Haryou-Act, an amalgamated Harlem improvement group, told of resentment at the meeting to King's conference with Wagner. "They were unhappy with Martin Luther King, they were mad," said Wingate.

The police department began assigning more Negroes to Harlem. Five Negro sergeants replaced five white sergeants. Similar re-assignments were being considered for the Bedford-Stuyvesant section, a predominantly Negro section of Brooklyn.

Both Negro sections were quiet through the weekend and Monday night.

## Sports Figure Dies

SAN FRANCISCO (AP)—Gordon G. Dunn, 52, a member of the 1936 U.S. Olympic team, died Monday apparently of a heart attack. Dunn was graduated in 1936 from Stanford University, went to the Berlin Olympics that summer and placed second in discus competition.

against Red infiltration from outside.

—More advisers for Vietnamese regional and militia forces.

—More civilian advisers, especially for economic development, administration, health, police, agriculture and social affairs.

—More troop-carrying helicopters, flare-dropping planes and personnel to keep them flying.

South Viet Nam has an army of 200,000 and a 200,000-man paramilitary force. The Viet Cong is believed to have about 80,000 fighters. Guerrilla experts estimate that it takes at least 10 soldiers to cope with one guerrilla.

The new commander of American forces in the Pacific, Adm. Ulysses S. Grant Sharp, told newsmen today he doubts events are leading to a general war in Asia and that he is optimistic about progress in South Viet Nam.

Sharp arrived in Saigon today to confer with Lt. Gen. William C. Westmoreland, U.S. commander in Viet Nam, and "to see what we can do better and to see what more we can do."

U.S. forces in Viet Nam now include about 10,000 Army men, about 5,000 Air Force, about 750 Navy and about 500 Marines.

There was speculation that the boost in aircraft strength might mean the assignment of more C123 transport planes. The C123, a propeller-driven plane designed especially for landings and takeoff on short fields, has proved particularly valuable in supply and other missions in the war against the Viet Cong in widely scattered and remote places.

In addition to work at military assistance headquarters and in schools, a major mission of the U.S. Navy contingent is working with the small craft patrols of the Vietnamese in running down junks and sampans carrying supplies for the guerrillas.

mark the opening of the two inbound lanes. Meanwhile, out-bound traffic has continued to use the city segment of the Freeway to a temporary connection with Dresden Ave. just inside the city limits.

Friday is the date specified for completion of the project in Great Lakes' contract with the state. The state said repeatedly through the spring and summer it expected to open the two out-bound lanes shortly before the official completion date.

However, the state said the contractor wished to delay the ribbon-cutting ceremony until some finishing touches could be completed, including cutting of weeds along the right-of-way.

Atty. Francis H. Lang is chairman of the Chamber committee. The Freeway segment is the second area stretch of the Lake Erie - Ohio River Highway, which eventually will stretch from East Liverpool to Ashtabula. It will be known as State Route 11.

## Commissioners O.K. Plat In Yellow Creek

Columbiana County commissioners Monday approved the plat of David W. and Alice E. Torrence, First Addition, Section 12 in Yellow Creek Township, Range 2. The development includes 11 lots with total acreage of 8.608, minus 1.132 acres for Torrence Dr.

In other business, commissioners authorized payment of \$292.72 to the East Liverpool Memorial Day Association for expenses with the following organizations included: Gold Star Mothers, 40 and 8 Voiture 273, Navy Mothers' Club 197, American Legion Posts 374 and 4, Marine Corps League Auxiliary and Post 66 and auxiliary.

A slag grant of \$300 was given to St. Clair Township trustees.

Next meeting will be Thursday from 10 a.m. to 4 p.m. at the Courthouse.

## Petition Termed As No 'Attack' On City Park Board

There is no "attack" intended upon the present Board of Thompson Park Commissioners in a petition with Jaycees are circulating to place a proposal on the Nov. 3 election ballot for establishment of a new park board, Acting Mayor George E. Willshaw said today.

The acting mayor said he made the statement because some persons have commented that they feel the Jaycee action is an attempt to "knife" the present commission.

Actually, the petition to place the issue on the ballot has been signed by three of the four members — Judge Louis Tobin, W. Leland Thompson and Louis Yanni — Willshaw said. The fourth member, Atty. William H. Vodrey, is out of town, but he has been contacted by telephone and has said that he is in full accord with the proposal, Willshaw said.

In starting circulation of the petitions, Jaycees said the city will be eligible for more federal funds in future "master plan" projects if it has a commission established under the provisions of the Ohio Revised Code. Such a commission can be established only by a vote of the people.

## Lockbourne Charged With Diverting Funds

WASHINGTON (AP)—Recreational facilities at Lockbourne Air Force Base near Columbus, Ohio, are among those said by the General Accounting Office to have been built without Congressional approval.

The GAO said Monday that the Lockbourne facilities — a golf course, golf club house, and riding stables — were built in 1959-60 with \$272,000 which had been earmarked by Congress for airport runway construction.

The GAO demanded that the Air Force discipline the individuals responsible for the method used to finance the projects. The Lockbourne projects were on a list that also included similar projects at other air force bases.

Arner told the coroner that attempts to revive the youth were futile. He said the trachea was blocked, making mouth-to-mouth respiration unsuccessful. Newell firemen also attempted to revive the youngster with a resuscitator. The boy was pronounced dead at City Hospital after further attempts at resuscitation.

A coroner's jury at an inquest Monday night ruled the youngster died of accidental drowning. Serving were William McIntosh, Edward Huff, Dwight Allison, Clifford Flowers, Byron Allison and Don Rank.

THE BODY was sent to the Melvin Strider Funeral Home in Charles Town for services.

Young Price was the fourth area drowning victim of the season, the first in Hancock County.

A 17-year-old Lawrenceville youth drowned in Beaver Creek July 21, a LaCroft youngster was drowned June 28 in a lake midway between Glenmoor and Apples Corners, and a 15-year-old Lisbon area boy drowned June 21 in Copeland Lake near Columbiana.

## Ohio U. Student Held For Stabbing Coed, 20

CLEVELAND (AP) — Detectives say a 22-year-old Ohio University student has admitted stabbing a 20-year-old Ohio U. coed because she didn't want to date him any more.

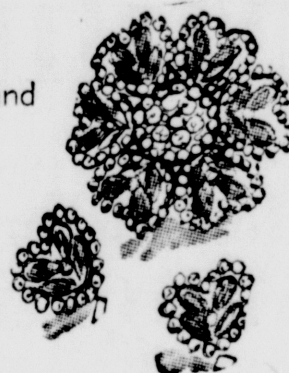

Stabbed five times, Dianne Pollitt, of Lakewood, was listed in fair condition in Lakewood Hospital after the incident Monday. She was wounded in the chest, back, abdomen and right arm.

Police were holding Danny L. Thompson of Marion. Homicide detectives said Thompson signed a statement that he stabbed the girl with a 4 1/2 inch hunting knife during an argument.

## Board Hears Supt. Hall

## Hancock School Finances 'Good'

Supt. Robert H. Hall advised the Hancock County Board of Education Monday night that the financial status of the county school system is in "good shape."

He reported the county has \$54,295.04 remaining from proceeds of a \$5 million bond issue passed a few years ago for construction of two new high schools, a junior and a new elementary school.

ALL THE buildings were put into use the past school term, although \$16,237.77 is still owed for work remaining by the contractors and fees due the architect.

Supt. Hall said the contract cost of Oak Glen High School was \$1,621,022, with \$3,000 due the contractor for loose ends, while contract price of the new Weir High was \$2,805,870, with \$7,500 due for work not yet finished.

Cost of the Chester elementary school was \$397,775, with \$2,300 still unpaid because work is not completed. Total due on the buildings is \$12,800, plus \$3,437 for the architect, or a total of \$16,237. After these bills are paid, the board has a working balance of \$54,295.04, Supt. Hall said.

THE BOARD approved the installation of two gates at two entrances of Weir High School

An experienced Project Mercury astronaut had been expected to draw the pilot's assignment but broken bones knocked the older spaceman off the crew.

Maj. L. Gordon Cooper Jr., one of the seven Mercury astronauts, was the only member of the original seven-man Mercury team available for the assignment. The manned spacecraft center gave no explanation of why Cooper was passed over.

The backup crew for this flight will be Maj. Frank Borman and Lt. Cmdr. James A. Lovell Jr., with Borman designated as spacecraft commander.

The second Gemini Titan flight, bearing the code name GT4, is scheduled for "the first quarter of next year," Haney said.

The first manned Gemini flight is scheduled for December. If this one goes on schedule, the second should be in March 1965.

Gemini plans call for a flight about every three months. This timing is based on the assumption no technical problems would delay any of the flights.

The first Gemini crew, Maj. Virgil I. Grissom and Lt. Cmdr. Thomas Stafford, was selected in April.

It voted 59 to 27 against a proposal by Sen. John J. Williams, R-Del., to require senators and other top Senate employees to submit copies of their federal income tax return and a list of their financial assets to a new watchdog committee.

## Lausche's Vote Helps Reject Income Listing

WASHINGTON (AP) — Sen. Frank J. Lausche, D-Ohio, voted with the majority Monday at the Senate rejected, 62-25, a proposed rules change which would have required senators and senate employees paid more than \$10,000 a year to disclose annual financial holdings, and dealings.

Lausche stood on the losing side, however, as the Senate adopted 48-39 a motion to send back to its rules committee the proposed financial disclosure rule and to report out instead a measure to establish a commission on ethics in the federal government.

Lausche also voted with the minority as the Senate defeated, 59-27, a proposed rules change which would have required senators and high-level Senate employees to submit copies of their income tax returns and lists of their financial assets to a bipartisan watchdog committee.

Sen. Stephen M. Young, D-Ohio, was not recorded as having voted on the three questions.

## Counsel Plans Appeal In Salem Man's Case

LISBON — Atty. James Primm said Monday he will carry an appeal to the 7th District Court of Appeals after Common Pleas Judge Joel H. Sharp Friday overruled a motion for a new trial for his client, Frederick C. Minamy of Salem.

Minamy was indicted by the April Grand Jury on a sodomy charge. He pleaded not guilty. He was convicted by a jury on May 21. On June 12, the motion for a new trial was argued before Judge Sharp, resulting in the ruling Friday.

## Lisbon Entry Study Pushed

LISBON — Chief Leon Zahnd said today officers are continuing investigation of an attempted safe - cracking early Monday at the Eagles Lodge Home on E. Chestnut St., in which the intruders were unable to open the strongbox and contented themselves with rifling money from a bowling board and a coin - operated music box.

The intruders drilled a large hole in the outside steel plate of the safe and a smaller opening was made in the concrete liner. Envelopes inside the safe containing money caught fire, apparently from the heat of the drill. The burglars poured water on the blaze to halt the fire.

The chief said the attempted safe - cracking appeared to be the work of professionals. Entrance was gained by removing the screws from the front door of the lodge home, then replacing them. The intruders apparently left via a basement door that can be opened only from the inside.

The department also is checking on an attempted burglary discovered Monday at the Matix Service Station on N. Market St. A pane of glass in a rear door was found broken. The would - be burglars may have been frightened away, police said.

by prepared to wield bayonets and rifle butts, if necessary, to preserve law and order.

The guardsmen rolled into Rochester Sunday night on orders from Rockefeller who acted at the request of local officials.

The mob violence in Rochester - touched off when police attempted to arrest a Negro youth scuffling at a street dance Friday night - subsided in the predawn hours Monday.

Authorities kept an emergency nighttime curfew clamped on the city in only slightly modified form. Any citizen found on the streets without justifiable reason between 8:30 p. m. and 6 a. m. was subject to arrest.

Three judges working in 12-hour shifts, released with suspended sentences more than two-thirds of the 800-odd persons arrested in the three nights of violence.

About 250 prisoners charged with felonies—such as rioting, burglary, or larceny—were ordered held for the grand jury—with bail set at \$10,000 cash.

The affidavits allege failure to file a final return on 1963 income or an estimate on 1964 earnings. In some instances, the defendants are accused of both violations.

Fifteen charges were filed in all, but the bailiff reported he was unable to locate one of the defendants, listed at an E. 3rd St. address.

The affidavits are the latest in a series Wilkinson said he will file at intervals until a backlog of about 80 charges is cleared up.

Hold The Danger To A Minimum

There has been another drowning in the district.

This time the victim—another teenager—perished in the Ohio River at the site of former Dam 8 near Newell.

So long as there is hot weather, so long as there are swimmers and so long as there are inviting bodies of water, there will be drownings. But again we emphasize that such tragedies can be held to a minimum if more common sense is used in selecting spots in which to go swimming.

To those who are only average or poor swimmers, we direct this appeal—Do your swimming in supervised waters. Then if trouble occurs help will always be close at hand.

Back-Door Diplomacy

One of the oddities of U.S. refusal to recognize the Chinese People's Republic diplomatically is the long dialogue that has been carried on between Washington and Peking in Poland — a back-door relationship.

This little known arrangement has given the United States more high-level diplomatic contact with Red China than many nations which recognize it diplomatically have had.

This week, the U.S. ambassador to Poland, John Moors Cabot, will begin another chapter of the dialogue with the Red Chinese ambassador, continuing a contact that began in 1954 during the Eisenhower administration.

PRINCIPAL topic in the early stages was exchange of prisoners. Red China was holding 76 Americans and the United States was holding between 60 and 70 Chinese students barred from leaving the United States during the Korean war.

Since then, the range has been broadened. There now have been 120 meetings.

One Thing About J. R. Hoffa

The jury's finding of guilty in the case of James R. Hoffa and six other codefendants on charges of fraud and conspiracy against the Teamsters Union pension fund came after a long, complicated trial in which batteries of lawyers used every resource and gimmick in the legal lexicon.

In a trial of this nature, the public cannot follow the arguments; they are too involved and complex. Toward the end of the trial the defense attorneys tried to plant an idea in the public mind that Mr. Hoffa was being persecuted by the U.S. government and specifically by Attorney General Kennedy.

On this, the public can follow the argument with no trouble.

The argument is that the attorney general, who came to that job after serving as counsel to the U.S. Senate investigation that uncovered the methods and personnel of the Teamsters Union under Mr. Hoffa, has a personal interest in prosecuting the Teamsters president — in persecuting him. This is supposed to reflect unfavorably on Attorney General Kennedy.

What else could Attorney General Kennedy be expected to do under the circumstances?

Mr. Hoffa has had the benefit of the most skillful legal counsel that could be hired in his behalf—and only recently has he begun to pay for it out of his own pocket. He has had the benefit of every technicality and quirk of the law.

Nothing has been spared to protect him. Few citizens of his generation have had more legal talent exerted in their behalf against the relatively modest talent representing government.

The allegation that he has been persecuted doesn't hold water.

Last February he was sentenced to eight years in prison and fined \$10,000 after being found guilty of trying to bribe a jury. Since 1957 he has been prosecuted five times and is still not in prison nor in any immediate danger of being put there, thanks to his right of appeal and the time that will be used up while his right is being exercised.

My Hate List

If this is to be the year of the Big Hatreds—and it's shaping up that way—here's my updated hate list:

Cucumbers in sour cream, scrambled eggs that taste as if they had been in the nest too long, politicians who say one thing and mean another, magazines that hide page numbers so you don't know where you are;

Motorists who beep horns to make traffic move on their peremptory order, television plays that omit the third act, traffic lights that gum up traffic at intersection which should have four-way Yield signs instead, cracker packages in restaurants that should be opened for customers by the waitresses (customers don't go out in the kitchen to open cans, do they?);

Writing implements that stain the fingers, saloons that give a customer one olive in a double martini, children who snuffle, whine, twist and writhe, a public policy that permits privately owned autos to be defaced with runny road oil in the summertime and corrosive salt in winter;

The stench of rancid cooking fat blasted into the faces of passersby by restaurant ventilating fans, stretch socks that shrivel up to doll size and must be pulled over my size 9½ feet by main force, toll road filling station attendants who fill your mind with doubts about your fan belt and other moving parts in hope of making a quick sale;

Restaurant coffee that tastes like it might be a chaser for a therapeutic brew but is not coffee, football training camp stories that refer to men under 200 pounds as "small" and under 170 as "frail," sadists who encouraged knobbed women to display their handicap in public;

The perversity of nature that makes grass grow in the driveway but not in the lawn and weeds flourish where flowers wither and die, the fact that beauty contest winners whose pictures I see never pass my way where I can enjoy the three-dimensional effect;

Iced tea that tastes like something scooped out of the Missouri River in floodtime, supercilious hotel and motel clerks who speak of the reservation you don't have as if you were trying to pull a fast one, people who try to tout me

By Truman Twill

off my total admiration for Jacqueline Kennedy;

Architecture that assumes the human animal is a bird or a fish, instead of a warm-blooded mammal that seeks and relishes privacy when feeding and sleeping, all mechanical devices accompanied by directions that are written on the assumption the user is an old hand;

Tracts that run along glibly as if reciting facts when the fact is they are tissues of fractional truths and outright lies, strangers who impose on my Sunday time off by trying to convert me to their religious views;

And, most of all, people who tell me what I must hate in this Year of the Big Hatreds. Thanks, fellow misanthropes; I have my own hatreds—and you're right up there at the top of the list.

This 'n That

It is easy to distinguish the American alligator from the American crocodile because the alligator has a much wider snout. Also, alligators are much less active and vicious than crocodiles. In the U.S., alligators and crocodiles are found together only in the swamps at the southern tip of Florida.

Bungalow No. 20—Center Of Intrigue

By Victor Riesel

ACCRA, Ghana

There are many subversion centers in Africa but the least known is in Bungalow No. 20 over on Seventh Ave., here.

All the bases of infiltration in other African nations are camouflaged. But the chief of operations in Bungalow 20, world-hopping John Tettegah, works openly because he is the personal agent of Ghana's President Kwame Nkrumah.

The latter, a strange man who goes to juju black magic seances to invoke geni, hopes to use Bungalow 20 as the springboard for continental revolution and the creation of a Communist United States of Africa.

Bungalow 20 is the political factory for the forging of new "Workers and Farmers" parties in other lands which now are anti-Communist and eager to cooperate with the U.S., England, France and West Germany.

There is no one to check on President Nkrumah's heavy expenditures for gun running and export of instant political prefabricated parties. He is Big Brother. He is absolute ruler.

HIS SECRET POLICE network is in the complete image of the old Stalinist and new Communist China thought control commissars. It is unprecedented in this western section of Africa—whose nations he seeks to control.

President Nkrumah has created a system of internal spies made up of "Brigadiers, Young Pioneers," and vehicular informers.

The latter are secret political police who act as taxi drivers. Or they are assigned to ride buses all day, listening to the citizenry. Those who complain about the dictatorship or criticize any of its internal or external policies are arrested and imprisoned without trial. There are thousands in Ghanaian prisons today.

They are jailed in the dead of night under the "rumormongering" law. Nkrumah himself decides what a rumor is and actually has personally

passed sentence on many of those arrested for speaking aloud about matters which offend him.

There is no court system as other nations know it. Mr. Nkrumah is the Law. He dismissed the chief justice, Sir Arku Korsah, and Justice Akuffo Addo as well as Judges Blay, Bossman, and Prempeh. Then he had a law passed which permits him not only to appoint and dismiss the entire judiciary but to act as the final court of appeals with power to reverse all court decisions.

THIS IS of considerable significance to the Americans who have invested heavily in Ghana. It means that there is no system of contracts; since President Nkrumah can simply abrogate agreements involving scores of millions of U.S. business's dollars.

Not only has he wiped out the authority of courts, but, most startling in Africa, Mr. Nkrumah has destroyed the political power of the tribes—the GaAdangbe, Krobo, Ewe, Akwamu, Asante, Fante, Akan, Mamprusi and Dagomba, as well as the northern tribes.

He has dissolved the pro-U.S. United party.

He has jailed such former national leaders as the former ministers of information and of foreign affairs and the sister of the former finance minister and her husband. All of those people were close to him.

In prison, too, are Chief S. Domblo, former leader of the minority in parliament, William Ofori-Atta, a United party leader and Dr. Kuta-Dankwa. The latter was mysteriously jailed simply because he was a friend of the ousted minister of foreign affairs.

Most of these men are friendly to the Western democracies—nations in which President Nkrumah now has emissaries seeking investments in Ghana.

THERE HAVE BEEN so many such mysterious arrests that the terror slogan is "One o'clock!" Cabinet ministers and other officials rush to the radio at that hour to hear if they or anyone in their families have been dismissed or criticized. When "One o'clock" is over they know they have survived—at least for the 24 hours until the next grim "One o'clock."

Even those who survive live in a political strait jacket. There is no freedom of movement. Citizens don't leave this country without exit permits, which are becoming scarcer by the hour.

There is only one political organization, the Convention People's party, of which "Big Brother" is supreme leader.

There is no freedom of union organization or commercial rights. This is controlled by the government under the Industrial Relations Act.

WITH GHANA under absolute control, President Nkrumah has been able to concentrate on attempts to overthrow peaceful governments along this west coast and some of the east of here. There is evidence that he has run guns, money and agents into Togo, Liberia, the Ivory Coast, Nigeria, Sierra Leone, the Cameroons and the Congo (Leopoldville).

Now he plans to plant political parties inside these nations and even as far east as Kenya on the Indian Ocean. These parties are being organized in Bungalow 20, which officially is the headquarters of the All African Trade Union.

On June 27, Mr. Nkrumah's mysterious agent and adviser, John Tettegah, flew to Geneva in an attempt to win international recognition of his "federation" so its agents could sit in United Nations organizations.

There is no limit to Mr. Nkrumah's imagination—and audacity.

Time For Action Now

By David Lawrence

Appeals Alone Won't Halt Violence

Platitudes and hortatory statements deploring violence and urging respect for law and order will do little good in race conflicts such as have broken out recently in the big cities. The situation will be helped only when President Johnson and state executives, like David Lawrence New York's Governor Rockefeller, begin to brush aside their political sensitivity and start coming to grips with the root of the whole problem — the abuse of the so-called right of public demonstration.

A dispatch over the wires of the UPI last Saturday afternoon tells in a nutshell the story of what's happening and why. It read as follows:

"New York — A Negro group led by an admitted Communist today went ahead with plans for a Harlem rally despite orders from the police commissioner prohibiting demonstrations by the group. . . .

"The Harlem Defense Council is led by William Epton, who says he is a Communist and recently taunted police by saying 'there is nothing they can do about political beliefs.' Epton, who is 32 years old, later was arrested and charged with disorderly conduct. He was released on \$500 bond and ordered to appear for a hearing on Aug. 7.

exercised," but that "when they go to the extent of irritating, exacerbating the situation, then I think we've had a little bit of a step back."

THE SENSIBLE leaders of the Negro organizations today find themselves hindered by groups that are incited by Communists and other militant organizers who are confident they will not be punished because they can rely for immunity on the "right to demonstrate" as interpreted by the Supreme Court today.

Leaders of the National Association for the Advancement of Colored People, on the other hand, have begged persons to stay off the streets during critical times in their communities. The Chicago Defender, a large newspaper of Negro ownership, has just called for a moratorium on demonstrations.

The United Press International a few days ago told of the chairman of the New York State district committee of the Communist party being photographed with another Communist as they attended a protest rally at which one leader, Jesse Gray, called for "guerrilla warfare" against the police.

Mr. Gray has taken the Fifth Amendment before the House Committee on Un-American Activities at least 20 times when asked about his Communist activities.

The head of the NAACP's New York branch is quoted as saying that "the Communists find out who is talking the wild-est, and then jump in with them."

There are, of course, plenty of "hate" groups without Communist connections, whose instinct is to resort to violence when they become angry.

Hot Campaign Seen

By James Marlow

WASHINGTON

From the way President Johnson and Sen. Barry Goldwater have been talking, you can get the impression the presidential campaign is going to be on a high plane, more or less. But this may not last long since neither man can predict or control the future.

Goldwater himself, in the midst of saying he would not make any personal attacks on Johnson and would campaign solely on the issues, told a news conference: "Oh, I think you'll find some brickbats flying around all over the place."

And Johnson is apparently prepared for anything that happens, while so far being bland about it all, for he told a news conference: "Most campaigns are rough campaigns and I'm an old campaigner. I've been at it 30 years."

This gives him more than twice the campaign experience of Goldwater because he was in Congress more than twice as long.

He never batted an eye—in public, that is—to Goldwater's charge that he is a "faker" and a "phony" and seemed to be trying to brush aside any thought he might retaliate in kind.

He said of his 30 years of campaigning: "One of the first things I learned—at least, as far as I'm concerned—the people are not much interested in my personal opinion of my opponent."

"The American people will make their judgments on the very statements that he may make from time to time."

There are plenty of other Democrats around to fling brickbats if Johnson won't, although it remains to be seen if

he won't, particularly if Goldwater flings them.

And if Goldwater won't, his running mate for the vice presidency, Rep. William E. Miller of New York, probably will since Miller has been described as a gut fighter, a "wiry rooster" with "nothing namby-pamby about him."

It can't be forgotten that Goldwater said one of the main issues in the campaign is the "scandal hanging over the White House." Somebody, if not Goldwater, is going to have to talk about it, since he called it an issue.

If a guess had to be made, this seems the likely one: this is going to be rougher than any campaign in memory if only because the intensity of feeling among Americans themselves seems so deep.

# Mike Smith Hurls No-Hitter, Little Leaguers Advance

## Pony Leaguers Roll On By Edging Upper Kanawha 5-4

### Americans Hammer Way To Title Game

Righthander Mike Smith fired a no-hitter to lead the East Liverpool Americans into the championship game of the District 5 Little League tournament Monday night at North Canton.

A big crowd was on hand as Smith put together his masterpiece and his teammates club-

bed North Canton pitchers for seven hits and a 7-0 triumph.

The shutout earned Manager Laird Christen's American Leaguers a berth in the District 4 championship game.

Their opponent for the title game Wednesday night at 6 will be Massillon Nationals, who clobbered Wellsville last night, 7-1, at Wellsville.

The game between East Liverpool and Massillon will be played at Massillon.

The local Americans, with John Higgins and Bob Cunningham as coaches, have performed brilliantly in their bid for the District 4 title.

In their opening game against Conotton Valley Monday at Thompson Park, Don Smith pitched a three-hit, 11-0 victory.

In the two games thus far the opponents have been unable to get a runner past second base, a tribute to solid mound work and defense of East Liverpool.

Against North Canton, Young Smith, son of Atty. Don E. Smith, allowed only two runners to get on. One reached first on a walk and the second got to first base on a wild pitch. Only one of Smith's pitches was hit to the outfield, and it was caught by the rightfielder for an easy out.

Smith issued the two walks and fanned seven in going the distance. It was the second no-hitter for the 12-year-old hurler.

Home runs by Kim Kemple, Joe Walker and Jim Massey featured the seven-hit East Liverpool attack.

Kemple, shortstop, smashed the third pitch of the game over the right field fence. The locals got two more runs in the first inning. A single by Eckles and Walker produced them. Both runs scored on wild pitches as North Canton turned in two force plays at home plate.

In the fourth, East Liverpool got two more runs. Massey slapped a single, Kinsey walked, Smith bunted for a single and after a force at home plate, Eckles walked, forcing in Kinsey, and Smith scored in Klembara's single.

In the fifth inning, Walker and Massey lashed back-to-back homers for two more runs.

Kemple and McVay, infielders for East Liverpool, each turned in fielding plays in the last inning that brought applause from the crowd.

Meanwhile, Massillon got seven runs on 10 hits to turn back Wellsville. M. Prosko, infielder, got Wellsville's lone hit. T. Selan hurled the victory for Massillon. Massillon got 10 hits off Wellsville pitching, including a homer by Porter.

### Terry Gets Shutout

## Yanks Blank LA, Reds Rip Braves

By MURRAY CHASS  
Associated Press Sports Writer

Suddenly they can't score against Ralph Terry.

Just a few weeks ago, they—the New York Yankees' opposition—couldn't keep from scoring, particularly in crucial situations.

Terry, a right-handed veteran, came through a personally crucial situation Monday night like Perry Mason sails through court cases.

Making his first start since June 10 when he last won, Terry pitched his first shutout of the season as the Yankees stopped the Los Angeles Angels 3-0 and increased their American League lead to one game.

Cincinnati bombed Milwaukee 11-2 in the National League in the only other game played.

Terry, now 3-8, shut out the Angels on seven hits, not letting a runner get past second base. The performance sent his earned run average to 5.18, the first time it's been under 6.00 since mid-May.

### Locals Move Into Regional Battles Aug. 6

Annexing their second straight sectional championship, the East Liverpool Pony League All-Stars nosed by Upper Kanawha in the title game Monday at Marietta and remained eligible for a shot at the regional crown.

It was "do or die" in the finals of the double elimination tourney at Marietta and East Liverpool came through with a 5-4 victory over the West Virginians after losing to the same team on Sunday.

A solo home run in the fifth inning by first sacker Gary Arrington with the score tied at 4-4 provided the edge.

It preserved a victory for pitcher John Finley, who battled through six innings, and left reliever Mike Caruso with a 5-4 lead.

Left fielder Dennis Klembara also smashed a home run and added a double for East Liverpool, while Bob Bickar collected two hits. The locals produced a nine-hit attack, while Finley and Caruso limited Upper Kanawha to six hits.

East Liverpool weathered a protest in the sixth inning over an arbitrary "time out" called by the first base umpire during the action.

Accompanying the champions to Marietta were Managers Ray Flint and Junior Burton, Bob Campbell, J. Allen Montgomery and Bob Bartram.

East Liverpool now enters regional play Aug. 6 at Springdale, Pa., with its opponent to be named later. Play on a higher level will be at Washington, Pa., and the Pony League World Series will be at San Francisco, Calif.

## Clay, Liston Plan Rematch In Fall

By CARL C. CRAFT  
Associated Press Writer

LOUISVILLE, Ky. (AP)—Mick the ballyhoo that usually attends such functions, heavy weight boxing champion Cassius Clay has signed for a rematch this fall with Sonny Liston—the man he dethroned last February.

Although the site and date have not been decided, the 22-year-old champ modestly predicts: "I'm going to make this the greatest fight in history. I have a great many surprises for the next fight—surprises in my prediction, on my strategy and on some trainers I'm bringing in."

The Louisville Lip, who earned a reputation for a flare for publicity before he won the title Feb. 25 at Miami, Fla., shunned the usual signing promotion. It was hush-hush from the time he signed the contract until the agreement papers were taken to Philadelphia, where Liston signed Monday night.

Bill Faversham, Clay's manager, said the target date for the fight is Monday, Sept. 28, but that the boxers have agreed only to a meeting sometime between Sept. 15 and Oct. 31.

The contract calls for both fighters to get 30 per cent of the gross receipts. Clay received 22 1/2 per cent and Liston 37 1/2 per cent in the February match.

The fight will be put on by Intercontinental Promotions, Inc., which promoted the first match between the two. Liston had stock in Intercontinental but said he has disposed of it.

It will be Liston's first return to the ring since he lost the title by failing to answer the bell for the start of the seventh round in Miami. Liston knocked out Floyd Patterson in one round for the title and then repeated his first-round victory over Patterson in the first defense.

NEW YORK (AP) — James J. Fahey, who collects rubbish and royalties, is Garbage Man of the Year.

The 46-year-old bachelor was honored Monday by the Refuse Removal Journal for his "outstanding contribution to the industry."

"Jim Fahey has upgraded the garbage man," said a spokesman for the trade journal.

Fahey became a man of letter and literature last year when he published "Pacific War Diary 1942-1945," an account of his experiences as a seaman aboard a cruiser. He has donated all royalties to charity, and lives on the \$100 a week he earns driving a garbage truck in Waltham, Mass.

RANGOON, Burma (AP) — Americans, says Secretary-General U Thant of the United Nations, are friendly, hospitable and well-meaning but most of them do not take an active interest in foreign affairs.

Thant, who has been visiting his native Burma, held a news conference before leaving Rangoon for Moscow, and told newsmen he wanted to correct "certain statements derogatory to the American people which were attributed to me" by the Burmese press.

"What I said to some close friends at a private luncheon... was that most Americans did not take sufficient interest in foreign affairs to be able to assess international developments," said Thant.

He added that he has high esteem for the good faith, friendliness and humane qualities of Americans.

## West Virginia Shows Record High Income

CHARLESTON (AP) — Personal income in West Virginia for the first five months of 1964 reached a record high, according to a national business magazine.

A survey released Monday by Business Week magazine indicated personal income in West Virginia during the period was \$1,459,700,000. The figure represents an increase of 4.8 per cent over the same period a year ago.

The magazine, however, said the increase was one per cent less than the national growth in personal income during 1964.

In another financial report Monday, the U. S. Commerce Department said per capita income in West Virginia in 1962 was \$1,810, compared with a national figure of \$2,353.

Three officers were named Monday night as delegates to the state convention Sept. 12-13 at Columbus from Local 677, American Federation of State, County and Municipal Employees.

They are Ken McCarty, president; Mrs. Catherine Martin, secretary, and Robert Kelly, treasurer, named at a meeting of the city employees' union in the Ohio Valley Gas Co. building.

John Trimboli of Youngstown, staff representative, reported on plans for a tri-county picnic for the public employees' union to be held at Idora Park in Youngstown over the Labor Day weekend.

One day will be devoted to each county in the district, with Sunday, Sept. 6, being designated for the Columbiana County workers' picnic. A percentage of the proceeds will be returned to the local unions for use in political education, Trimboli reported. The district also includes Mahoning and Trumbull Counties.

The union voted an honorable withdrawal card to J. R. Mitchell, a street department employee and a member for many years, who retired recently.

Two members were accepted and two others were initiated. Kelly, chairman of the blood bank committee, reported on the progress of a blood bank which city employees are organizing.

Next meeting will be Monday, Aug. 24.

## Man Changes Autos, But Luck's Still Bad

Claude M. Tarr, 813 Bank St., found out his luck did not change when he bought a new auto.

A week ago—on Monday, July 20—a 1956 model car which he owned was stolen from a parking place on old W. 8th St., opposite Westgate School. It was recovered the next day near the Trinity United Presbyterian Church on Maine Blvd.

In the meantime, Tarr acquired a 1962 model sedan. He told police it was stolen sometime after 6:30 a.m. yesterday—also from old W. 8th St. The owner found his new auto at 5:09 p.m., near the point from which it had been taken. The left front door had been damaged, he said.

## Walk Party Tightrope

## Southern Senators Quiet On Johnson's Campaign

WASHINGTON (AP)—Many Southern Democratic senators are walking a tight political rope in their efforts to maintain their party regularity without tying themselves to President Johnson's campaign.

Sen. Herman E. Talmadge, D-Ga., is the latest to join the ranks of those who may preserve the kind of "golden silence" practiced by Sen. Harry F. Byrd, D-Va., in the 1960 campaign when former vice president Richard M. Nixon carried Virginia. Byrd has given no indication of what he plans to do this year.

Talmadge said in a terse statement Monday that he has always been a Democrat and expects to remain one.

He added: "I have not been requested to make any speeches for the party and have no plans to do so."

"I will continue to vote on each and every measure (in the Senate) in accordance with my judgment in the best interests of my country and my state."

Talmadge is one of 21 Southern Democrats who voted against the Civil Rights Act.

Johnson signed July 2. Among the 21 were six senators whose seats are at stake this year. These include Virginia's Byrd, and Sens. Robert C. Byrd of West Virginia, Albert Gore of Tennessee, Spessard L. Holland of Florida, John Stennis of Mississippi and Herbert S. Walters of Tennessee.

Sen. Allen J. Ellender, D-La., who is not running this year, said he is sticking to his intention not to attend the Democratic convention at Atlantic City, N.J., next month. Ellender said that when his name was listed tentatively as a Louisiana delegate, he ordered it scratched.

Sen. John L. McClellan, D-Ark., who is not up for election, said in a separate interview he hasn't been asked to speak for the national ticket and doesn't expect to receive any such request.

In the estimate of many politicians, Johnson's popularity in the South has slumped materially since he put on pressure for passage of the civil rights bill and the Republicans named as their presidential nominee Sen. Barry Goldwater, who voted against the measure.

## Fulbright Sees Russian Role For Central American Canal

WASHINGTON (AP) — Chairman J. W. Fulbright of the Senate Foreign Relations Committee says that when a new sea-level canal is built across Central America a group of canau-using nations, possibly including Russia, might join with the United States in the project.

In a new book, being published today, the Arkansas Democrat says he is not advocating Soviet participation in a new canal project, but "neither do I think it must be ruled out as unthinkable," he says.

Fulbright says a new sea-level canal, larger than the Panama Canal, must eventually be built. When it is, he adds, the United States should consider having it built by a "consortium"—a partnership of governments. He then suggests that the Soviet Union, as a canal user, might be a member of the consortium.

Because the Soviet Union would be just one of a group of nations, Fulbright says, it would be unlikely to either disrupt operation of the canal or gain a new base for "subversion in Latin America."

Fulbright adds that Soviet participation might strengthen "their commitment to a peaceful status quo" and thus the international project would represent a gain "for world peace and stability."

Fulbright's book, published by Random House, is entitled "Old

Myths and New Realities" and is based on an expansion of speeches the Arkansas Democrat has made in the Senate and elsewhere in recent months.

His basic theme is that the United States needs to overcome what he calls a "cold war mentality," rid itself of unrealistic ideas about the state of the world and work for "a worldwide state of mind in which peace is favored over war."

"The cold war and all the other national rivalries of our time are not likely to evaporate in our lifetimes," he says. "The major question of our time is not how to end these conflicts but whether we can find some way to conduct them without resorting to weapons that will resolve them once and for all by wiping out the contestants."

## Fidel Blasts U.S. Again On Cuba Base

SANTIAGO, Cuba (AP)—Fidel Castro launched a new attack at the United States Monday night, declaring that Cuba will "answer shot for shot" if "another man is murdered" by U.S. Marines at the Guantanamo naval base.

The Cuban prime minister held a 3½-hour news conference for 33 American newsmen visiting Cuba at his invitation and 40 other foreign newsmen who came to Santiago for the celebration of his 26th of July revolutionary movement.

Castro again rejected the U.S. denial of his charge that U.S. Marines killed a Cuban sentry at the Guantanamo border two weeks ago.

"What is important is that we believe and know that this happened and the Soviet Union also knows it," Castro said.

"If another of our men is murdered, we will not have another alternative but to answer shot for shot independently of what the American government believes or not."

"The Soviet Union knows if we are forced to take measures we would not be looking for war."

Castro made clear that he would not give up his ties with the Soviet Union to improve relations with the United States.

"The United States tries to maintain a cold war with us and at the same time wants to improve relations with the Soviet Union," he said.

"That objective will not be accomplished. Cuba will not tolerate being separated from the Socialist bloc."

Castro dwelt at length, however, on the chance of improving relations with the United States.

"We have no resentment against the American people," he said. "It would be stupidity not to be willing to discuss our differences."

"If there is willingness, a way will be found. We want to discuss, but are not in any hurry, and we are prepared not to have diplomatic and commercial relations with the United States for the next 20 years."

LISBON — Over 30 attended the Columbiana County Republican Advisory Council luncheon Monday noon at the Wick Hotel. Brief comments were made by Prosecutor G. Miss Gladys DeBolt of East Liverpool, county GOP chairwoman, announced a "Dutch-treat" luncheon will be held Monday noon at the hotel for the Columbiana County Republican Women's Council and each GOP Women's Club in the county is to send at least one delegate.

Atty. Charles Pike, county Republican chairman, announced three meetings.

The Columbiana GOP Club will hold a coverdish picnic at Pavilion 4 at Firestone Park Wednesday at 6:30 p.m. Meat, rolls and beverage will be furnished.

The Salem Republican Women's Club has changed its cook-out from Wednesday to Thursday at 6:30 p.m. at the home of Miss Carmen McNichol of Salem.

The Wellsville Republican Club will hold an all-day picnic Friday from 1 to 9 p.m. at the Paul Todd cottage, near Grimms Bridge, east of Calcutta.

Next Advisory Council meeting is Aug. 10 at the hotel.

### Ohio Power Gets Commission OK On Reduced Rate

COLUMBUS — Application for new rate reductions the Ohio Power Co. filed with the Public Utilities Commission at Columbus July 15 has been approved by the commission and will become effective Aug. 1.

The reductions, which will save Ohio Power customers a total of \$242,000 annually, will benefit large users of electricity who do not live in total - electric homes, some customers who live in all - electric homes and all public, private and parochial schools which use electric heating.

Major savings under the new rate schedule will go to residential customers who do not reside in total - electric homes. In these cases, or all home usage between 800 and 3,000 kilowatt-hours per month, the rate will be reduced from the present 1.5 cents per KWH to 1.2 cents. For all residential usage over 3,000 KWH per month, the rate will drop to 1 cent per KWH from 1.5 cents. It will mean a savings of \$190,000 annually to about 24,000 of these customers.

In the future, Ohio Power will bill its total - electric home customers at a rate of 1 cent per KWH for all electricity over 3,000 KWH used per month, compared to the present rate of 1.2 cents for all KWH over 1,200 per month. This will affect about 3,270 of the company's 11,000 total - electric customers and mean a total savings to them of \$30,000 per year.

Twenty-six schools using electric heating will realize a total savings of approximately \$22,000 annually.

This marks the third time since 1961 that Ohio Power has placed rate reductions into effect.

### Chief Hints At Arson In Mulberry St. Fire

Fire Chief Charles Bryan said today a fire that caused minor damage Sunday or early Monday in a Mulberry St. building recently purchased as a new site for a church may have been touched off by an arsonist.

The chief said the blaze damaged a table and caused a hole in the floor before burning itself out in a building at 467 Mulberry St. He said the building was purchased Friday by Mrs. Gladys Cronin, pastor, as the new home of the Fellowship Tabernacle, now located on Smith St.

The building was being readied for occupancy by the church, the chief said. Mrs. Cronin left the building at 2:30 p. m. Sunday and discovered the damage when she returned at 10 a. m. Monday, he related. Bryan and Asst. Chief James Pelley made the investigation.

### Keep In Trim

By IDA JEAN KAIN

#### Regard Protective Foods As Bargain Calories

The dieter's dilemma: We burn our fuel foods according to the demand of the body for energy, not in accordance with the amount eaten. We have to eat to keep up our strength, but excess fuel doesn't create more strength, just more fat.

When I mentioned to a friend that Ida Jean Kain the 1963 Recommended Calorie Allowances for adults had been cut drastically, I chuckled over her reaction. She bristled:

"Yes, I read that the Food and Nutrition Board had altered the recommended calorie allowances downward for adults . . . and it makes me just furious!"

Well, it is disgruntling, but when it comes to calories, there ain't no Santa Claus!

—

WHETHER WE like the calorie cut or not is beside the point. The blunt truth is that our mechanized way of life has diminished our calorie requirements. The newly revised allowances for adults of 300 to 400 calories a day less is more realistic in view of the prevailing activity patterns in our land.

With calories lessened, we need to be more selective. Calories are the measure of the fuel content of a food, in terms of quantity. The term gives no clue to the quality of the calories. . . no indication whether they are empty or protective in terms of replenishing nutrients. We nutritionists often describe this as empty versus full calories, but since full sounds fat-

tening, I like the term protective.

Nutrition science is wonderful. Certain foods, because of their nutrient composition, furnish an abundance of life-giving essentials — proteins and minerals to bolster sagging tissues, and vitamins and minerals to act as body regulators.

Fortunately for dieters, and for most everybody else in this mechanical age, the foods high in vital nutrients are not the weight makers. Each food included in safe low - calorie menus is chosen because it contributes its full quota of nutrients. These protective foods are the backbone of every balanced reducing diet: Lean meat, fish and fowl; milk, skim milk or buttermilk, and cheese; green and yellow vegetables; fruits; whole grain or enriched cereal, or bread with spread.

—

A WELL-CHOSEN low-calorie diet can furnish better nutrition than you had on a more fattening regime. Regard the protective foods as bargain calories. You can't stay young on empty calories — sugar, alcohol, the fat of the meat, and poor quality baked goods.

Always plan daily meals around the foods that furnish top-grade nutrients. A definite advantage of this plan is that you experience how to control your weight through your new pattern of eating.

What's needed today is a slimming pattern that keeps the nutrients up and the calories down.

Send stamped, self-addressed, long envelope for Eat To Build Leanness. Address request to Ida Jean Kain, care of The Review. Post card requests cannot be answered.

### Thanksgiving Turkey May Be Cheaper

With temperatures in the 90's, it seems an unlikely time to talk turkey.

But Don Myers, Columbiana County extension agent in agriculture, said the succulent bird may cost less for the traditional holiday meal.

Farmers expect to get less for their turkeys this year since production may be 5 per cent above that of 1963, according to Myers.

The forecast from the State Co-operative Extension Service office said this is due to increased hatching more fertile breeding and improved flock and egg management.

As a result, prices next fall will be less than the average of 22.6 cents per pound received last year September through December.

Fruit crops for Columbiana County in apples, grapes and sour cherries will be above average, and nearly double the 1963 output and probably the largest in Ohio since 1951.

Minimum winter damage, favorable weather, good-to-heavy set in most varieties and generally good insect and disease control are expected to make this year's harvest one of the best in 13 years, Myers said.

### Singapore Lifts Strict Curfew In New Calm

SINGAPORE (AP)—Riot-torn Singapore took another big step toward normal today with the lifting of all daylight curfew restrictions on the racially troubled island.

There were no racial clashes during the night between Chinese and Malays. The curfew still is in force from 6 p.m. to 5:30 a.m.

Markets reported no shortages of food, and prices dropped to the level prevailing before the racial violence.

### Technicality Blamed Vocational Class Delayed As 7 Planned To Attend

Seven young men from the area were to have attended the Mahoning Valley Vocational Training School today at Vienna, near Youngstown, but the opening has been postponed indefinitely because of a technicality.

The Ohio Bureau of Unemployment Compensation announced the postponement. The local office of the Ohio Employment Service said word was received this morning of the cancellation of the school.

Those who were to have left this afternoon for the school were Bernard Beaver of Sherwood Ave., Herbert Buzzard, 2898 Fair St., Elmer Lee Nelson of 5th Ave., LaCroft, Leslie Briggs, 310 Aten Ave., Wells-ville; Alexander Fraser, 1146 Riverside Ave., Wellsville; Roger Gearin, 717 Washington St., Wellsville, and Donald McIntosh Jr., Wellsville R.D. 1.

The problem arises from the question of authority of a city school district — Niles in this case — to operate a vocational school for the state.

Niles' solicitor, James R. McQueen, advised the city school board earlier this month that it apparently had no such authority.

The attorney general's office was asked July 17 to look into the question. Chief Counsel Larry H. Snyder said no statutory authority had been found up to the time the State Education Department withdrew the research request yesterday.

The school, patterned after one in Jackson, was to have used buildings at the Vienna Air Force Base. The federal

### Chemical's Use Aired For 'War' On Army Worms

LISBON — Entomologists at Ohio State University reported today an outbreak of army worms is occurring in several counties in the northern half of Ohio in sufficient number to justify the use of an insecticide, with corn, oats, and Sudan grass being the principal crops affected, according to Don Myers, county extension agent in agriculture.

Small, local army worm infestations have been reported in Columbiana County and farm producers should be on the lookout for the pest, he said.

Malathion (1 quart 58 per cent emulsion concentrate per acre) can be used on grains or forage close to harvest (7 days tolerance), he said. Eighty - five per cent sprayable Sevin (1½ pounds actual per acre) can be used safely on corn or grain or silage. Dieldrin also may be used on corn if it will not be cut for silage within 60 days.

DDT and Toxaphene are recommended for corn being harvested for grain only.

Toxaphene or DDT should not be used on corn for silage, small grains or hay crops due to the illegal residue left by these chemicals. However, they may be used satisfactorily for laying down a barrier to protect the fields, Myers said.

# Ann Landers

ANSWERS YOUR PROBLEMS

Dear Ann Landers: I did what I thought was right and now I'm in Dutch with the people I sit for. Please publish my letter and your advice.

I'm a teen-ager who sits for a nice family. They have four children. Maybe I'm a fraidy cat but I never open the door for anyone. After all, I don't know all the friends and relatives of the people I work for. Chances are about one in a million that I might let in an intruder but I don't want to take that one chance.

The other night a man rang the doorbell. He had a suitcase in his hand, and said he was a brother-in-law. I refused to let him in the house. He was awfully mad at me because he had to sit in his car for two hours.

When the Mr. and Mrs. finally came home they were furious with me. They said I should have known from looking at the man that he was "perfectly okay." What do you think about this?—CHICKEN.

Dear Chicken: I think you're the kind of girl I'd like to have as a sitter for my granddaughter.

The first rule a sitter should learn is never to open the door for anyone. It's not possible to tell by looking whether a person is "perfectly okay". The folks for whom you work should have praised you for your good judgment—and given you a bonus in the bargain.

## Handicap Racket

Dear Ann: I was interested in the letter from the woman who wrote about the deaf mute who went around selling packets of needles for 50 cents.

I work in the Department of Health, Education and Welfare in the area of vocational rehabilitation and I can tell you there is no justification for any deaf person operating as a beggar, peddling his disability.

Generally speaking, deaf people have normal strength, mobility and intelligence.

Our efforts to help the deaf often are undone by the operation of gangs of deaf beggars who swoop down on a community with their false tales of inability to obtain jobs, thereby creating a negative image of deaf people.

They distort the true capabilities of the deaf and thus harm their own employability and ultimate adjustment. Millions of intelligent Americans have formed their concepts of the deaf as a result of a fleeting contact with this fraudulent begging racket.

I hope you will print this letter and help educate the public.

Dear B. H. M.: I'm happy to do so and I appreciate your letter. Thank you for writing.

## Personal Affair

Dear Ann: I have rewritten this letter four times in an ef-

fort to make it printable. Please publish it, because I cannot receive a reply in the mail and I can't talk about this to anyone.

There are two women in our office. One is a divorcee, the other never has been married. They do not live together, but they have lunch together every day, take vacations together and spend their evenings together.

There are rumors around that these women have an abnormal relationship. I simply cannot believe such a thing is true because they are both extremely intelligent, refined and the divorcee has two children.

If the rumors are true should these women be fired? Please answer. You can see I need education.—IGNORANT.

Dear Ignorant: You are asking if it is possible that these women are homosexuals. The answer is, yes—it is possible, but not necessarily true.

Should they be fired? No. If they are competent, if they mind their own business and stay to themselves it would be cruel and senseless to deprive them of employment.

Ann Landers will be glad to help you with your problems. Send them to her in care of The Review, enclosing a stamped, self-addressed envelope.

## Group To Air Promotion Of School Bonds

The Citizens' Committee for Better Schools has slated a meeting Tuesday, Aug. 4 at 7:30 p. m. in Room 601 of Central School to plan a campaign supporting the proposed \$3.3 million bond issue for school expansion.

H. Judson English, manager of the East Liverpool branch of the Columbiana County Motor Club, is chairman. All committee members, plus anyone else interested in the betterment of the East Liverpool school system, have been invited.

The committee plans an intensive campaign to promote the \$3,380,000 bond issue to be decided in a special election Sept. 15.

It would help finance construction of three new elementary buildings and a new high school, and would release a State Department of Education interest-free loan of nearly \$1 million towards the building program.

## Musicians Local Resets Chester Concert Aug. 30

The free band concert which was rained out July 12 at Chester City Park has been rescheduled for Aug. 30 at 2:30 p. m. Frank Craven, secretary of American Federation of Musicians Local 172, announced today.

Other performances include two concerts at St. Rocco's celebration in Wellsville Aug. 10 and 12, both at 7:30 p. m.

The final concert will be Sept. 6 at the Wellsville Jaycee celebration when the band will play on the Main St. square at 7:30 p. m.

Kitchen rule: fill cake pans about two-third full.

## 3 Hancock Legion Posts Win Awards At State Convention

American Legion Posts in Newell, Chester and Lawrenceville won awards at the 46th annual department convention Friday through Sunday at the Pritchard Hotel in Huntington.

Lawrenceville Post 163 won a trophy for the largest percentage of the 1964 membership quota, and child welfare awards went to Newell Post 114 and Chester Post 121.

One of the highlights of the election of Ike Mayfield of Bridgeport as department commander over Louis D. Meisel of Fairmont. Mayfield is a financial specialist with the Small Business Administration in Clarksburg. He has been 3rd District commander.

Gov. W. W. Barron addressed the convention and praised the Legion "for improving the image of West Virginia around the world." He presented an award to Tommy E. Jones, department adjutant since 1952 and past state commander for outstanding contribution to the veterans program of the state.

Also speaking were Thomas L. Craig Jr. of Fairmont, winner of the Legion's oratorical contest, and Tom Way, 1964 governor of Boys' State.

# Hints from Heloise

— By Heloise Cruse —

Dear Heloise: I use my ironing board as a sprinkling table by putting an old plastic tablecloth on it to protect the cover. Then just sprinkle away....

MRS. B.L.W. And we already have the ironing board R-E-A-D-Y???  
HELOISE.

DEAR HELOISE: Baby bottle brushes that have broken handles or are not in use any more, are wonderful for cleaning a parakeet's water container.

The containers are so small that I could find nothing to fit into them until I thought of this. Now I have a bottle brush for baby's bottles and one for the bird.

MOMMY OF TWO BOYS AND ONE PARAKEET.

DEAR HELOISE: When I bake a cake and find that the layers have risen to a hump in the middle, here's what I do:

For the layer that I choose to go on the bottom, I slice off the "mound" so the cake will be flat and the top layer won't crack! Then I take a little extra icing and ice this mound on a small plate.

My children like their own little cake and I like to see how perfectly the big cake layers fit, too.

C.A.

DEAR HELOISE: It was with great interest that I read in your column about making bibs

for babies from fingertip-towels. May I add to the suggestion?

My mother had been using these bibs for visiting grandchildren. When the new grandchild arrived, she discovered they were fine for him, too. She would put a bib on the baby before she gave him his bottle....

...than lift the bib and lay it over her shoulder (while the bib was still on the baby) as she burped him!

That way both of them were protected!

MRS. J.A.F. Please tell your mother we all love her dearly.  
HELOISE.

DEAR HELOISE: The letter from the bachelor, laughing at the thought of cleaning an oven because no one ever sees it, started me wondering if there are others who also believe this!

The reason an oven is kept clean is not for show but to prevent fires. Just this past year grease dripped over onto the bottom of our oven (from an oversized turkey in too small a pan) and caught fire.

This is a most frightening experience and once remembered makes it a must to keep that oven clean, for it can happen with old grease, too!

SHIRLEY VACHA.

DEAR HELOISE: Here is a suggestion:  
When using a white bedspread on top of a colored

blanket... first put a white sheet on top of the colored blanket, then the bedspread on top of the sheet.

It makes the spread look much whiter.

MRS. H.S.

DEAR HELOISE: Here's another hint for your nylon net....

After sanding down wood, wipe the wood with a handful of net. The sanding dust disappears from the wood, clings to the net and can be shaken or rinsed away.

SANDY.

## Rochester Violence Traced

# Frustration Caused Riot

By BERNARD GAVZER  
ROCHESTER, N.Y. (AP)—Helen Myricks was pleased with the way things were turning out. There was \$60 collected for the playground from the sale of barbecue sandwiches, hot dogs and punch. Now the last record was spinning and the street dance would end. The people, especially the teen-agers, seemed to be enjoying themselves.

Then someone came to Gene

Stevens, whose wife, Carrie, was one of the dance organizers with Mrs. Myricks, and said, "Some boy over there is causing a fuss."

Stevens had been keeping an eye on things. This was just a last minute kind of dance for the people on the block. Friday nights had been too full of hell raising in the Negro section as it was. It was wise to keep an eye open. Stevens told the boy to quiet down. So did some others. He wouldn't. So Stevens went to the Myricks' porch where two white patrolmen, Anthony Cerretto and Roger Bacon were standing.

"We walked up to this guy," says Cerretto, "and we didn't even get a chance to ask him to leave. He started yelling and resisting and swinging. The next thing, we were all on the ground. Bacon and me and the guy. We put the cuffs on him."

"But this crowd that was dancing and enjoying itself turned on us. They yelled for us to take off the cuffs and let the guy go. They wedged between us. Two plainclothesmen who were at the end of Nassau Street on Joseph Avenue came from their car to help us. They were Dan Funk and Sal Arnone. Then everything let loose. Either Dan or Sal, I don't know which, got back and radioed for help."

It was 11:38 p.m., Friday, July 25, 1964, the minute, the hour, the day, the date, the year that thriving, comfortable Rochester learned how a riot is born.

But there is no time for history in the birth of a riot. The communication system of a riot is rumor. Rumor moves faster than any electronic device. It jumps rivers and walls and buildings. It has a music: sirens. It has a color: red, for the blood on men's hands.

That call for help put through by Funk or Arnone brought cars with sirens and lights.

Rocks and stones and old brick from a large empty lot on Joseph Avenue near Nassau Street greeted the squads. Men and boys and women and girls jeered and swore at police. Wire trash baskets sailed from the crowd to land on the officers.

Several K-9 Corps teams arrived. The mob reached a new fury. Broken bottles littered the street and 50 police faced perhaps 500 persons. All of the action was centered at the intersection of Joseph Avenue and Nassau Street. The riot was 27 minutes old.

The looting began. Two hours passed. Time enough for the word to have spread like a typhus. A crowd of whites blossomed between the New York Central station and the U.S. Post Office. On one side of the street were the whites; Negroes on the other. Fire trucks arrived. So did police from Brighton and Greece. The hoses stiffened with the pressure of water and the threat of a race riot was crushed.

The dawn brought a scene of senseless, wanton destruction.

What end did this serve? This is the question.

But a riot needs no end except to be what it is. And Negroes trying to explain it to themselves as well as others came to the same conclusion: that frustration and bitterness are reason for violence.

Anyone who tried to impose reason quickly learned this. After two nights, there scarcely was a street in any of the Negro areas that did not show scars of violence.

On Sunday afternoon, there came a spectacle so sickening that it was felt that this might sober men and bring sense to them. A helicopter used to observe riot areas hit a Negro dwelling, plunged to the sidewalk, exploded and set the building afire. The pilot was killed and so were two persons in the house.

But Sunday night brought no respite.

The riot finally did come to its tired end, spent by the energy of its own fury, and the plain fact that there was nothing to win, either at the beginning or the end.

**Bank Move OK'd Despite Protests**

WASHINGTON (AP) — The Federal Reserve Board has cleared the way for Society Corp. of Cleveland, Ohio, to acquire the Fremont Savings Bank Co., Fremont, Ohio.

Action by the board Monday, over a strong protest by board member J. L. Robertson, will permit Society Corp. to become a bank holding company to acquire at least 80 per cent of the common stock and 100 per cent of the preferred stock of Fremont Savings.

Robertson's protest included a complaint that Ohio already has two holding companies and that with the addition of a third, "it takes little imagination to foresee eventual domination of the state's banking structure by a handful of bank holding companies."

However, the majority of the board said the change will not give Society Corp. a dominant position or an undue competitive advantage.

**Twinsburg Endeavors**

TWINSBURG, Ohio (AP) — Gov. James A. Rhodes, here to help break ground for two new plants, praised this Summit County community for bringing in new industry.

"Twinsburg residents and officials are their own best friends. They are not waiting for someone else to attract industry. They are seeking it themselves," Rhodes declared at a luncheon following ground breaking ceremonies for the first plants in two industrial areas in Twinsburg. The plans are for the Universal Ohio Corp. and Loopco Industries.

# Out Of The Air

By ALAN GILL

## At The Complaint Window

Though you've seen him a dozen times, at least, and laughed at him each time, the name still may be a bit fuzzy—John McGiver. He was the jewelry salesman in "Breakfast at Tiffany's," the man who forgot the name of his bank one recent Sunday night in the comedy, "The Missing Bank of Rupert X. Humpertink," and he always seems to be the man who blows in from Scotland Yard in every Act III ever written.

Alan Gill

BUT NEVER mind, the name McGiver surely will be quite celebrated this fall when the gentleman stars in his own comedy series for CBS-TV "Many Happy Returns."

You'll immediately recognize the dandy ringed blue eyes, the bald pate and the peculiar enunciation. (Each word seems to be carefully formed by a tongue that's just been bitten; then the word has been sent out into the world through the echo chambers of the McGiver nose.)

It's no wonder the man reminds some people of Donald McBride and others of W. C. Fields, but he's his own man all the way.

"Many Happy Returns," says McGiver, is "good family entertainment not too hip, a nice antidote to the violent stuff."

"WHEN I mention it's about a fellow at the complaint window of a department store, people laugh. Well, I hope they're right. But the one who might run off with the whole thing, heaven forbid, is Andrea Sacino, a 4-year-old who plays my granddaughter.

"She's not coy or sweet but cute as a tack."

McGiver should know. His family of 10 children comprises approximately 10 per cent of the population of the wee town in which they live — Fulton, in upstate N. Y.

The McGiver homestead is an old steeple building that formerly was a church; and McGiver runs a country store nearby, calling it "The Church Bell."

He opened his store because he wished to give local craftsmen a place in which to display their wares: shawls, throw rugs, seat covers, candles, wooden bowls, maple syrup.

I TALKED with McGiver during a recent New York visit in which he closed down (temporarily) the home in Fulton and packed his progeny off to Santa Monica, Calif.

"It shouldn't be too hard on the children out there," he said, "since we're a block from the ocean and we're renting

from a guy with 10 kids and a pregnant wife.

"I must say, however, that I had two of my teen-aged daughters out with me last summer and I'd tried impressing them with a cottage at Malibu, the nicest restaurants in town, a couple of fishing expeditions, a tour of the M-G-M studios, and an introduction to Bob Hope; but you know teenagers.

"Bob said, 'How do you like Hollywood?' They said, 'Aw, it's all right.'"

"MY BOY, BASIL, is perhaps none too happy about the move at the moment. He had to sell his 40 chickens, the goat and the sheep.

"Terry, who's 13, doesn't seem to mind. Five or six years ago, I took him with me on tour with 'The Remarkable Mr. Pennypacker,' in which he had a role.

"I banked almost all the money he made but gave him an allowance of a few dollars a week. Every once in awhile now, he says, 'Gee, I wish I was an actor again. I miss those three bucks a week.'"

McGiver, as you'd guess, is rather sold on the charms of a big family.

"Two children," he feels, "are a burden, constantly in strife. But after you've had three, your troubles are gone. You stop being a parent and begin being an administrator."

THE YOUNG McGivers are not terribly impressed with their father's profession or talents, though.

"They can take me or leave me alone," John told me. "I remember Terry watching one of my TV jobs for about 10 minutes and then giving up on it. He said, 'Boy, you better not tell people about this one!'"

Nevertheless, Papa McGiver will have a lot to tell people through next season. "Many Happy Returns" will keep him on-screen almost constantly, as Walter Burnley, the sweet-tempered complaints man.

And his contribution, unlike that of many TV actors, will be confined solely to acting.

"I'M TOO BUSY doing that," he says, "to worry about the director's art or where the camera's pointing.

"Some day I'll write a book and find out what TV is all about. Meanwhile, I'll leave the fretting about camera angles to the younger actors."

Younger actors, McGiver feels, should concentrate strictly on their performance. He quoted a comment of Walter Kerr's about a burgeoning actor-director-producer after a disastrous opening night: "This young man has delusions of adequacy."

The "busiest" canal in the world is the Sault Ste. Marie Canal, connecting Lakes Superior and Michigan.

# Bringing Up A Family

By DR. GARRY MYERS

## Adults Should Be Gracious To Children

Parents differ widely in their graciousness to children. Also guests, even those who are parents themselves, vary widely in this respect. A direction in which either group may err, even prove themselves rude to children, is in treating them as younger than they are — or Dr. Garry Myers as if they were toys, pets or persons without feelings. Of the child 5, 12 or 16, the guest or hostess may make idle comments about physical traits.

"Jean has her grandmother's eyes, her father's chin and her Uncle Andy's nose."

"Where does she get her height?" a guest may inquire. The mother answers, "Grandpa." How does the listening child feel then, be he 6 or 16?

IF A CHILD has a scar or mark on the face or forehead, or a crippled hand or foot, some guest may be sure to inquire how it happened. Too often the willing parent explains at great length, in words which sound to the suffering child like a recording played a hundred times before. When any guest is rude enough to make such remarks, the parent - hostess should be smart and gracious enough to shift the conversation skillfully.

Some parents incline to exploit children under 4 or 5, trying to show their guests how smart they are, even when they really may not be precocious at all, except in the minds of their parents. These children may enjoy being exhibited while they are so young, but may suffer as they grow older.

Certainly, very few children over 8 or 10 enjoy having their parents brag about them before guests; and they must be mortified when parents refer to some undesirable recent behavior of theirs. As a rule, wise and gracious parents avoid reference to all personal matters when guests are present.

CONSIDER all the silly questions a guest may ask the child of 8 or 10. "How old are you?" "Do you like school?" "Who is your boyfriend?"

If you are a guest, and keep quiet and listen, you may not need to ask a child a question in order to get him to talk. He soon senses whether or not you regard him as a person, whether or not you really treat him with dignity. He may sense it in the way you act and listen to him when he volunteers a remark.

Taking your right clues there, you might hit on a pertinent question which would bring out delightful conversation with him. When a youngster 4, 12 or 16 speaks with ease, comfort or enthusiasm with you, you can feel you are a gracious guest.

His ease of conversation may not depend wholly on you, but also on his parents. He's aware of how they act and feel as he talks with you. If they reveal no worries about what he will say or how he will say it, if they are relaxed and listen with dignity, all may go well.

UNFORTUNATELY, some children rarely have an opportunity to speak for themselves when guests are present. A certain girl, 14, once said, "I am never able to finish a sentence; my mother or father always butts in."

Perhaps we parents have our hardest test of being gracious when the playmates and pals of our son or daughter drop in. While we need to exercise some controls, especially when young guests are present, and maintain some reasonable standards, we can, and should be gracious.

In general, we build in our children a high regard for us as parents through the way we speak to and act toward their young friends.
